- 1.1. Bowls Australia strives to ensure that its members participate in the game of bowls in the safest environment possible and with minimum risk of harm. This includes ensuring the weather policy can apply to Bowls Australia events nationwide and provides clubs with confidence to adopt the practices as they see fit.
- 1.2. Weather conditions can vary greatly throughout Australia and Bowls Australia does not intend to second-guess the judgement of the controlling body of any given game. The decision whether to suspend or discontinue play remains the discretion of the controlling body and in Bowls Australia's case, the competition manager.
- 1.3. Bowls Australia provides the following policy for use during all Bowls Australia events. The policy can be adopted at any level to assist the controlling body in their decision making.

**2. WHERE BOWLS AUSTRALIA IS THE CONTROLLING BODY:**

- 2.1. At all events where Bowls Australia is the controlling body, the following methods will be used to monitor the event location's weather:
  - 2.1.1. Bureau of Meteorology website ([www.bom.gov.au](http://www.bom.gov.au))
  - 2.1.2. A portable calibrated weather station or Stevenson Screen/Box.
- 2.2. The competition manager will consult the tournament director, the head technical official, the club's green keeper and other personnel as required to gather information to make an informed decision.

**3. MONITORING AND MANAGING HOT WEATHER**

- 3.1. Before the start of the event, the controlling body will monitor the expected temperatures for the duration of the event.
- 3.2. Before the start of play each day, the temperature will be monitored and an announcement to all players will be made warning them of the expected extreme temperatures if appropriate. Players will also be made aware that the weather policy may be invoked during the event.
- 3.3. When the competition manager deems the temperature (as indicated using one of the methods listed in point 2.1 above) has reached the temperature as specified within the Conditions of Play, play will be suspended by the controlling body and all players will

complete the end they are currently playing and move from the green to a cool shady area. If the end is declared dead, the end will be replayed if and when the game is restarted.

- 3.4. When the competition manager determines the temperature has fallen below the recommended guidelines, play should resume.
- 3.5. Players, officials and spectators should at all times be encouraged to wear hats or other sun protection. It is recommended that a hat be part of any uniform and sunscreen be worn as appropriate.
- 3.6. Drinks should be available at every venue where play/competition takes place. Tap water should be available free of charge and in unlimited quantities. Other drinks may be served or sold as determined by the host club(s).
- 3.7. Where available, shelter should be offered for players and officials not involved in current play.
- 3.8. In making the decision, the controlling body will take account of all relevant factors including the age and health of players and officials, the weather conditions and climate for that part of the country, the level of humidity, the evacuation/ emergency plans for the club/venue and the amount of shade or shelter available at the venue.

#### **4. LIGHTNING**

- 4.1. Lightning can strike without other typical storm characteristics (i.e. thunder, rain and wind) being present. Bowls Australia is committed to ensuring all players, officials, administrators and spectators are safe during lightning activity.
- 4.2. When lightning is sighted by the competition manager, the controlling body will suspend play and all players will be required to leave the green immediately and move to a safe structure.
- 4.3. When the controlling body deems it safe to return to the green, play should resume as per Law 32.
- 4.4. Identification of safe structures
  - 4.4.1. No place is absolutely safe from lightning strikes, but some places are much safer than others. The controlling body must identify the location's safe areas and ensure that all parties are aware of them.
    - 4.4.1.1. SAFER areas include:

Remove metal objects (keys, badges, belts etc.), crouch down with feet together, head down and hands over your ears. It is safer to adopt this position if outdoors than to be in one of the unsafe situations listed above.

## **5. MONITORING AND MANAGING WET/COLD WEATHER**

5.1. Before the start of the event, the competition manager will monitor the expected conditions for the duration of the event.

5.2. If the ground is slippery from frost, snow, rain or mud or if the temperature drops below eight degrees or the sky becomes dark, it is at the discretion of the controlling body to determine whether to discontinue play.

5.3. In making the decision, account should be taken of all relevant factors including the age and health of players and officials, the weather conditions and climate for that part of the country, the wind-chill factor, the evacuation and emergency plans for the club and venue and the amount of shelter available at the venue.

5.4. If it begins to rain, play will continue until the competition manager deems it unsafe to do so or the greens become unplayable. In making the decision, the competition manager will utilise the methods listed on page one to gain an understanding of the rain patterns in the immediate area. Should it be apparent that prolonged rain periods will continue, it is recommended play will be discontinued.

5.5. The time off the green may vary from venue to venue depending upon the playing surface, the shelter available etc.

5.6. When the controlling body deems it safe to return to the green, play should resume as per Law 32.

5.7. When severe winter weather is forecast, the controlling body should initiate procedures and regularly monitor weather conditions and reports. The controlling body may contact local and state/territory agencies for input on weather and road conditions. The controlling body should review such things as the present weather condition and the traffic conditions within the immediate area as well as outlying roads upon which players and officials are arriving. Based on this information, the controlling body will decide whether to cancel play/competition.

5.8. Where available, shelter should be offered for players and officials not involved in current play.

## **6. GENERAL GUIDELINES FOR CLUBS**

- 6.1. It is best practice for clubs to use a calibrated weather station to measure the weather. If one is not available, contact your state/territory association to determine the method preferred in your state/territory and the preferred temperature guidelines.
- 6.2. Each club should have in place evacuation and emergency policies and procedures and should conduct an evacuation drill at least once in each 12 month period.
- 6.3. Each club should provide a contact phone number that players and officials can ring if they are in doubt as to the state of play on any given day.
- 6.4. Bowls Australia advises that where possible, clubs should usually continue play or competition where they are able to do so, however, player and official's safety will remain the paramount consideration.
- 6.5. The controlling body should suspend play/competition for up to two hours if the wet/cold weather conditions look like they may improve. Where conditions have not improved in that time, the controlling body should cancel the play/competition for that day and reschedule.
- 6.6. The controlling body may approve rescheduling play/competition to another day or weekend if the controlling body determines that conditions are unsafe for players, officials or spectators. Typical reasons for this include consistent heavy rain, lightening, snow, slippery conditions, extreme heat or cold and bad light.
- 6.7. If play/competition is to be cancelled and rescheduled, the controlling body will use their best endeavours to notify participants. The controlling body will determine the most appropriate method of communication and might consider community radio, newsletter, phone calls or e-mails.
- 6.8. Each club should have its own policy as to refunding any fees to those participants who are unable to play/compete at the rescheduled time when the play/competition is cancelled due to adverse weather.
- 6.9. In parts of Australia susceptible to cold and wet weather, it is recommended that clubs have warm clothes and a waterproof jacket as part of their uniform.

## 7.FIRST AID FOR LIGHTNING VICTIMS

7.1. Victims of lightning strikes are safe to handle - they do not “retain charge”. First aiders must ensure they do not become another casualty - move the victim to a safer location. Effects of lightning strike include cardiac and respiratory arrest caused by disruption of the brains’ control centers. Cardio-Pulmonary Resuscitation (CPR) or Expired Air Resuscitation (EAR) should be given as required. It is important that even people who show no symptoms immediately after the strike receive medical attention, as some effects may not be immediately obvious. Do not hesitate to call 000.

### BOWLS ETIQUETTE

#### A GUIDE TO ENJOYING LAWN BOWLS IN A SPORTING MANNER.

#### **YOUR CLUB.**

All clubs are reliant on good members. **All members should contribute to the club** and there are many ways to do this and regardless of whether or not the contribution is small in measure or large, **all members should be treated equally.**

- Privileges are not rewarded for those volunteering their services only a “vote of thanks”
- Show respect to club officials including selectors as they are performing a thankless task.
- Make new members feel welcome at your club.

#### **YOUR TEAM.**

- Always be a positive member of the team that you have chosen to represent within your club.

Remember you are representing your club not yourself. Always play the position that you have been selected to play in to the best of your ability.

#### **YOUR OPPONENT.**

- Never criticize your opponent’s bowl – it is much better to commend a good bowl.
- Always be punctual – Keeping your opponent waiting is un-sportsmanlike and may also affect your own team.
- **Never** obstruct your opponents view from the running of the bowl or distract him/her when he/she is at the point of delivery.

#### **GREENS.**

- Many hours are spent preparing greens and surrounds often voluntarily. It is bad etiquette to toss bowls onto the green, step into the ditch or close to the ditch.
- Ensure rubbish is placed in the bins provided especially cigarette butts.

## **DRESS.**

- Always observe and maintain proper dress code for the particular event you are participating in.

## **ENJOYING THE GAME.**

- We all play bowls for enjoyment, it is appropriate to at all times to treat others as you would have them treat you.

Listed below are some points that make sure the game is enjoyed by all

- Bad language is not tolerated and often results in disciplinary measures from your club committee.
- Offer positive solutions to your committee. Never criticize the various committees and if disappointed with a decision, pursue this through the appropriate channels and not at the bar or in corners around the club.
- Don't argue with the Skip as to the shot requested, simply ask to confer with him/her at the head.
- Make visitors welcome to your club. Stay focused on your game and contribute positively at all times.
- Do not be a moaner on a bad day.
- Know the difference between sarcasm and humour.
- Don't speak loudly while a player is on the mat.
- Unless your duties extend to making decisions, keep your advice to yourself.
- Don't allow your shadow to fall across the mat or green whilst a player is delivering their bowl.
- Time wasting: Do not adopt a style of play that unnecessarily wastes time. Players should not delay play and should not leave the green for extended periods without consent.
- At the completion of a game contribute by putting all equipment, flags etc away in their respective storage areas.
- Listening to radios, mobile phones etc or speaking to spectators for lengthy periods should be avoided.
- Observe the rules regarding practice on pennant days at all time.
- After the game the home team players should sit with their opponents, offering them refreshments. At a neutral venue, the winner should offer the first purchase of refreshments and in a singles game the invitation should be extended to the marker.

## **RESPONSIBILITIES:**

**LEAD.** It is customary to pick up your opponent's bowl on the first end. In many instances your opponent may not wish for this to continue as team mates often look after each other.

**SECOND.** To introduce yourself and team to the opposition.

Assist his/her team in moving bowls to a safe position behind the mat at the conclusion of each end to enable the game to proceed quickly.

Keep the score card and attend to the score board.

**THIRD.** To measure when necessary in consultation with your opposition.

To advise the skip when he/she is asked the position of the head or for advice.

To recover bowls from the ditch.

To place his/her skip's bowls on the mat when it is his/her turn to bowl next.

To mark His/her skip's touchers.

Answer the skip's queries correctly and concisely.

Signal the score clearly and concisely to the skip.

**SKIPS.** To keep his/her teams morale high and commend good shots.

To mark teams touchers.

Arrange coin toss to decide the first use of the mat. In some instances the skip may delegate this task to the lead. In pennant play this responsibility is given to the team manager.

Instruct the players clearly as to the shot to be played but not how to play it unless the player asks.

Make decisions with opponents to comply with the laws of the game.

Never move to the adjacent rinks to lift their bowl to allow the passage of your bowls.

## **TEAM.**

- Members of the team should not interfere with the third when he is measuring. If a situation arises where a third has overlooked a possible counter, members of the team may draw his/her attention to this.
- Never criticize a member of your team to outsiders. this achieves nothing more than a loss of unity
- Never make disparaging remarks about a poor shot by a team mate. Far better to encourage him/her to improve with his/her next bowl.
- Remember the skip is in charge, give him/her all your support even if you have doubts. After the game is the time to resolve these.

## **DUTIES OF MARKERS.**

- Assist the players to align the mat.
- Align the Jack and place a full length Jack 2 metres from the ditch.
- Advise players when it is considered the jack is not a minimum of 21 metres from the mat line for approval by both players. If any player disagrees call the Umpire.

- Stand in a position so that he is not in the line of play obscuring the boundary peg or allowing his/her shadow to fall on the head.
- Mark any touchers.
- Carefully remove any chalk marks from non touchers.
- Replace any bowl he may accidentally move.
- Remove any bowl that is dead.
- If requested by one of the players, stop any prematurely played bowl.
- To give information regarding the position of the head to the player in possession of the mat.
- To answer any question briefly with either a “yes or no “ if possible providing this does not mislead the player.
- If requested, measure for any shot or call the Umpire if unable to decide.
- Record the score at the end of each end and advise the players of the score.
- Alter the scoreboard after every second end.

#### **RULES:**

- Respect and know the rules of the game. Do not get involved in decisions unless it is your duty or your advise has been asked for by the person whose duties are to make such decisions.
- Officials should be seen to act impartially and in the spirit of the game.

As soon as each bowl has come to rest, possession of the rink transfers to the other team, time being allowed for marking a toucher. A Director therefore should NOT step forward to decide or signal the position.

- A Skip may delegate their position and duties to another member of his/her team (usually measuring) provided the opposing Skip has been notified. A Skip cannot delegate to any other member of his/her team to fill in the scorecard.
- Players not playing a bowl or directing SHALL stand a minimum of 2 metres behind the head or mat.

#### **GAMESMANSHIP:**

- Enjoyment of the game is diminished if gamesmanship is taken to the point where it intrudes on the spirit of the game affecting the opposition, your team or even the spectators.
- Be humble in victory as defeat may only be around the corner.
- Allow your opposition an unobstructed view of the head when it is his/her mat.
- Never show delight in your opposition’s misfortune.

- Don't move behind the head when a player is delivering his/her bowl
- Confine yourself to the rink that you are playing on, taking particular care when changing ends.
- If following your bowl ensure this is done within the rules.
- Ensure that it is your head to inspect before approaching and keep away if it is your opposition's so as to allow them to inspect without being impeded.
- It is the responsibility of a player following his/her bowl to the head to ensure that he/she is past the head prior to the bowl coming to rest.

#### **COACHING TIPS:**

- Practice your weaknesses. Look after your physical well being, general fitness greatly assists mental preparation.
- Turn negatives into positives. E.g. " I can't play in this wind" should be " I can play in the wind as well as anyone else" Get to know your team mates. The more you understand them the better.
- Work on your consistency in all facets of the game including you attitude.
- Ask for help when things don't seem right. Accept responsibility for yourself and don't blame other factors such as green and weather conditions.

#### **REMEMBER:**

**EACH CLUB OR TEAM IS ONLY AS STRONG AS THE WEAKEST LINK.**

**TAKE RESPONSIBILITY FOR YOUR ACTIONS AND CONTRIBUTE POSITIVELY IN A SPORTSMANLIKE MANNER TO YOUR CLUB AND TEAM AT ALL TIMES**
